## FULL STACK DEVELOPER

### GET TO KNOW ME

Bringing extensive experience as a full stack developer, I played a key role in building a large-scale platform from the ground up with a small team. Proficient in modern front-end frameworks and tools, I have a strong eye for design and user experience.

My previous career roles give me a unique skillset in problem-solving and collaboration. After eight years in Amsterdam, I've returned to the U.S. and I'm looking to take on new challenges in a dynamic development team.

### EDUCATION

#### Codaisseur

### PROFESSIONAL EXPERIENCE

#### FULL STACK DEVELOPER

*Epiphany RBC Amsterdam, NL 2022 - 2025*

- Developed game-like interactive web applications for global brands such as Ikea, Uber, Nespresso, and Asics, ensuring cross-browser compatibility and seamless performance across global markets.
- Built and optimized a large-scale, data and AI-driven platform from the ground up, enabling faster and higher-quality consumer insights through advanced data processing and visualization.
- Contributed across the entire development lifecycle, from frontend UX/UI to backend development and DevOps, ensuring a seamless user experience, scalability, and efficiency.

#### SOFTWARE TRAINER & SPECIAL PROJECTS MANAGER

*Massachusetts General Hospital Boston, MA 2015 - 2021*

- Subject matter expert and trainer for hospital's \$600M transition to a cloud-based Epic EHR system.
- Collaborated in an agile environment to develop and deliver training programs, ensuring effective system adoption.
- Provided end-user support and optimized workflows, leveraging data analysis to assess user performance.

#### CLINICAL SOCIAL WORKER

*Massachusetts General Hospital Boston, MA 2014 - 2016*

- Provided clinical services to a diverse range of clients to address psychosocial, environmental, and cultural issues.
